for Infectious Disease**

**COMPANION  
DIAGNOSTICS AND  
LIQUID BIOPSY**

**Drug-Diagnostics  
Co-Development**

**Technologies for  
Liquid Biopsy**

Since 2009, the diagnostics community has united at **Next Generation Dx Summit** to discuss trend-setting developments, milestones, challenges and opportunities in the industry. A decade later, the diagnostics industry has paved the path to the precision medicine era with tremendous advancement in rapid and non-invasive testing, cancer detection and monitoring, and expanding applications of clinical sequencing.

As the market demands faster and more precise diagnostics, and regulatory and reimbursement conditions continue to evolve, diagnostic professionals need a comprehensive event that can help them build partnerships, gain industry knowledge, and network with and learn from their peers. **Next Generation Dx Summit** provides a venue to advance the science of diagnostics and improve the practice of medicine.

### EVENT FEATURES:

- **Form** partnerships with major players in the evolving areas of diagnostics
- **Gain** a comprehensive, up-to-date view of diagnostics, including the latest applications for COVID-19
- **Gather** important industry announcements
- **Hear** late-breaking news on lessons learned from COVID-19 testing

- **Review** latest technologies in the poster session
- **View** innovative products and novel platforms in the in-person exhibit hall and on the virtual platform
